This will develop a sense of pride and accomplishment in the children while creating a very special art piece that can be kept or used by Embrace as a reminder of the wonderful experience of the day. In addition we will have more than one large scale canvas available for kids to spray, splash, handprint, draw, etc that will also be given to Embrace to further their cause and awareness around developing our children. For older, more serious children we</p>

	<p>will have more advanced activities, and mediums available. Easels, canvas, acrylic paints, with an artist that can advise. For others we will encourage them to participate in free-movement art techniques like splashing - this is a very self-expressive activity.</p>
Jungle Theatre Company	<p>The show we would like to perform is called When Lion Had Wings. When Lion Had Wings has 7 actors and is a visual street theatre piece and uses daring stilt characterizations, animal masks, original music and Nama language to tell a traditional Khoikhoi folktale. The story starts in ancient times when all the animals lived in fear of Lion who could fly. However some tricky Frogs reveal that Lion's magic is hidden beneath a pile of bones. The balance of nature needs to be restored. It's about overcoming fear, challenging greed and discovering our talents.
