## NATIONAL SENIOR CERTIFICATE

## GRADE 12

MATHEMATICAL LITERACY P2
FEBRUARY/MARCH 2017

## MEMORANDUM

MARKS: 150

| Symbol | Explanation |
| :--- | :--- |
| M | Method |
| M/A | Method with accuracy |
| CA | Consistent accuracy |
| A | Accuracy |
| C | Conversion |
| S | Simplification |
| RT/RG/RD | Reading from table/graph/diagram |
| SF | Correct substitution in formula |
| O | Opinion/Example |
| P | Penalty, e.g. for no units, incorrect rounding off, etc. |
| R | Rounding off |
| AO | Answer only full marks |
| NPR | No penalty for rounding |
| J | Justification |

This memorandum consists of $\mathbf{1 5}$ pages.

## QUESTION 1 [31 marks]

| Ques | Solution | Explanation | Level |
| :---: | :---: | :---: | :---: |
| 1.1.1 | $\begin{aligned} \text { World population } & =65,3 \text { million } \times 113 \quad \checkmark \mathrm{M} \\ & =7378,9 \text { million } \checkmark \mathrm{S} \\ & =74 \text { hundred million } \checkmark \mathrm{R} \\ & =7400 \text { million }=7400000000 \\ & =7,4 \text { billion } \end{aligned}$ | 1M multiplying 1S simplification in millions 1 R answer in hundred million | $\begin{aligned} & \mathrm{L} 2 \\ & \mathrm{D} \end{aligned}$ |
| 1.1.2 | $\begin{aligned} \% \text { Europe } & =100 \%-(12 \%+29 \%+14 \%+39 \%) \\ & =6 \% \quad \checkmark \mathrm{~A} \end{aligned}$ $\begin{aligned} \text { Total displaced people } & =(65,3+21,3+10) \text { million } \\ & =96,6 \text { million } \quad \checkmark \mathrm{A} \end{aligned}$ <br> Number of people distributed in Europe $\begin{aligned} & =6 \% \times 96,6 \text { million } \quad \checkmark \mathrm{M} \\ & =5,796 \text { million OR } 5796000 \quad \checkmark \mathrm{CA} \end{aligned}$ <br> OR $\begin{aligned} & \text { Total displaced people }=(65,3+21,3+10) \text { million } \\ & =96,6 \text { million } \quad \checkmark \mathrm{A} \\ & 12 \%+29 \%+14 \%+39 \%=94 \% \quad \checkmark \mathrm{~A} \\ & 94 \% \times 96,6 \text { million }=90,804 \text { million } \quad \checkmark \mathrm{M} \\ & \text { Number of people in Europe } \\ & =96,6 \text { million }-90,804 \text { million } \quad \checkmark \mathrm{M} \\ & =5,796 \text { million } \quad \checkmark \mathrm{CA} \end{aligned}$ | 1 M adding to get $94 \%$ <br> 1A percentage for Europe <br> 1A total <br> 1M percentage calculation <br> 1CA number in Europe <br> OR <br> 1A total <br> 1 A adding to get $94 \%$ <br> 1M percentage calculation <br> 1 M subtracting from total 1CA number in Europe | $\begin{aligned} & \text { L3 } \\ & \text { D } \end{aligned}$ |
| 1.1.3 | Number of persons from the three countries given $\begin{aligned} & =(1,1+2,7+4,9) \text { million } \\ & =8,7 \text { million } \quad \checkmark \mathrm{A} \end{aligned}$ $\begin{aligned} & \% \text { of refugees }=\frac{8,7 \text { million }}{21,3 \text { million }} \times 100 \% \\ & \checkmark \mathrm{RT} \\ &=40,8 \% \quad \checkmark \mathrm{M} \\ & \checkmark \mathrm{CA} \end{aligned}$ <br> $\therefore$ The statement is not valid. $\quad \checkmark \mathrm{O}$ | 1A total persons <br> 1RT total of refugees <br> 1M \% calculation <br> 1CA percentage <br> 10 verification <br> OR | $\begin{aligned} & \hline \mathrm{L} 4 \\ & \mathrm{D} \end{aligned}$ |

| Ques | Solution | Explanation | Level |
| :---: | :---: | :---: | :---: |
|  | OR <br> Number of refugees from the three countries $\begin{aligned} & \quad \stackrel{\checkmark \mathrm{RT}}{ }=21,3 \text { million } \times 54 \%^{\checkmark \mathrm{M}} \\ & =11,5 \text { million } \quad \mathrm{A} \end{aligned}$ <br> Total number at the three countries $\begin{aligned} & =(1,1+2,7+4,9) \text { million } \\ & =8,7 \text { million } \quad \checkmark \mathrm{A} \end{aligned}$ <br> $\therefore$ The statement is not valid. $\checkmark \mathrm{O}$ | OR <br> 1RT total refugees $1 \mathrm{M} \%$ calculation 1A number <br> 1A total persons <br> 10 deduction NP for omitting millions |  |
| 1.2.1 | $\begin{aligned} \% \text { females below } 18 \mathrm{yrs} & =8,8 \%+10,2 \%+6,6 \% \\ & =25,6 \% \checkmark \mathrm{RT} \end{aligned}$ | 1RT correct three values 1 M adding 1CA simplification AO <br> (3) | $\begin{aligned} & \mathrm{L} 2 \\ & \mathrm{P} \end{aligned}$ |
| 1.2.2 | This age group covers the largest range of ages. <br> OR $\checkmark \checkmark \mathrm{O}$ <br> This age group is a workforce. They might not have work in their own country. <br> OR <br> They are physically fit and able to migrate. $\checkmark \checkmark \mathrm{O}$ <br> OR <br> Adults fleeing to protect their children/ poltical climate of country. $\checkmark \checkmark 0$ <br> OR Any other valid reason | 20 explanation | $\begin{aligned} & \hline \text { L4 } \\ & \text { D } \end{aligned}$ |
| 1.3.1 | May $\checkmark \checkmark$ O | 2A correct month | $\begin{aligned} & \mathrm{L} 2 \\ & \mathrm{D} \end{aligned}$ |
| 1.3.2 | Mean $\begin{aligned} & =\frac{5580+7373+10280+29810+40340+43460}{6} \\ & =\frac{136843}{6} \checkmark \mathrm{~A} \\ & =22807,16667 \checkmark \mathrm{CA} \\ & \approx 22807 \end{aligned}$ | 1 M calculating mean <br> 1 A sum of the number of refugees 1CA mean <br> NPR <br> (No mode or median calculated correctly full marks) | $\begin{aligned} & \mathrm{L} 2 \\ & \mathrm{D} \end{aligned}$ |

| Ques | Solution | Explanation | Level |
| :---: | :---: | :---: | :---: |
| 1.3.3 | For both years the number of refugees increase from January to June $\checkmark \mathrm{O}$ <br> $\checkmark \mathrm{O} \quad$ OR $\quad \checkmark \mathrm{O}$ <br> For 2014 the number of refugees increase from January to June and for 2015 the number of refugees increase from January to June $\quad \checkmark \mathrm{O}$ <br> OR <br> For both ${ }^{\checkmark} \mathrm{O}$ years the number of refugees increase substantially in April and June. $\checkmark$ O <br> OR <br> Month to $\stackrel{\checkmark}{ } \mathrm{O}$ month there are an increase form 2014 to 2015 <br> OR <br> Compared to 2014, 2015 has more refugees entering Europe per month. <br> OR <br> There was a significant increase from March to ${ }^{\checkmark} \mathrm{O}$ April in both years | 10 both years <br> 10 increase <br> 10 months <br> OR <br> 10 for year <br> 10 increase <br> 10 months <br> OR <br> 10 both years <br> 10 increase substantially <br> 10 months <br> OR <br> 10 both years <br> 10 increase substantially <br> 10 months <br> OR <br> 10 both years <br> 10 increase substantially <br> 10 months <br> OR <br> 10 both years <br> 10 increase substantially <br> 10 months | $\begin{aligned} & \hline \mathrm{L} 4 \\ & \mathrm{D} \end{aligned}$ |
